INTRODUCTION

Vantage Investment Management Limited (the "Manager") has been appointed as the Fund's investment manager. Vantage is focused on finding and delivering value, using in house research and proprietary systems. Vantage's principal objective is for the funds it manages to add value relative to clearly defined benchmarks, which are chosen to reflect specific investor needs. The search for value is the foundation of Vantage's investment policies and approach. Vantage seeks also to provide investors with the highest attainable level of security for their assets, along with superior service.

Vantage World Equity Fund (the "Fund") was incorporated in November 2007 as an exempted company under the Companies Law (as amended) of the Cayman Islands. Vantage Investment Management Limited ("the Manager") will invest the assets of the Fund in a focused global portfolio of shares and currencies. The Manager is advised by Vantage Investment Advisory Limited (the "Advisor"), which conducts proprietary investment research into global equities and currencies.

The Fund will attempt to meet the needs of investors who wish to allocate a portion of their assets to global equities. Such investors wish this portion to be fully exposed at all times to the benefits and risks associated with investing in global equities. The Fund's investment benchmark (the "Investment Benchmark") is the MSCI World Index including income ("MSWI"). Prior to 28 May 2014, the Investment Benchmark was defined as the FTSE World Index including income. The Fund's investment objective is to exceed substantially, over any three year period, the returns of this Investment Benchmark without exceeding its volatility.

The Fund's investment approach is to remain fully invested in a focused global portfolio of shares in major corporations, selected on fundamental valuation criteria and with supportive technical action, or with the expectation for improving earnings. The Manager seeks superior investment performance by investing for the long term in above average companies when their valuations do not appear to fully reflect their future earnings potential. The Fund's portfolio turnover is expected to be less than 50% per annum. The choice of the Custodian & Prime Broker ("the Custodian") to the Fund is motivated by the need to ensure the highest attainable level of security for the Fund's property. The choice of the Administrator is motivated by the quality of service this party is able to offer the Fund and its Members

Hence the Fund offers investors:

A focus on adding value: Vantage believes that its disciplined and seasoned computerised approach to equity selection leads to the identification of superior investment opportunities within global equities and thus to superior returns over time than those available through either a passive investment in the MSWI or the average global equity fund. The focus of the Manager is on identifying investment opportunities that offer such returns, and the Performance Fee is significantly dependent on achieving such returns.

Security of assets: All of the Fund's property will be in the custody of UBS AG (London), the Custodian (the "Custodian"). The administration of the Fund, including the weekly determination of the Fund's Subscription and Redemption prices will be undertaken by MUFG Alternative Fund Services (Cayman) Ltd. (the "Administrator"). The Fund is audited by BDO, (Cayman Islands).

Transaction efficiency: Investors in the Fund are not subject to initial charges. There are no undisclosed or hidden charges, and the Manager will strive to ensure that all of its transactions in underlying securities are undertaken at the lowest achievable costs and keenest prices. Hence the Directors believe that the highest achievable proportion of the investors' subscribed capital will be put to work in the most cost efficient way.

Clarity and transparency: Investors are informed of the investment objective, approach and investment restrictions of the Fund. The Investment Benchmark is clearly identified. Investors will receive via the website of the Manager (detailed below) a weekly report of the Fund's performance versus its Investment Benchmark, and at quarter end a report disclosing the Fund's investments, its performance against the Investment Benchmark, other comparative indices, and the Manager's investment outlook.

Convenience: The Fund will be priced, and subscriptions or redemptions may be made, on a weekly basis. All income and charges of the Fund will be comprehensively accounted for and reflected in the weekly pricing of the Fund. The latest Net Asset Value and the subscription and redemption prices of the Fund will be available by telephone on + 1 902 493 7000 or via the Internet at address: www.vantagefunds.com.

INVESTMENT POLICY AND APPROACH**Investment Objective**

The Fund's investment objective is to exceed substantially, over time, the returns of the average of the world's equity markets as represented by the MSCI World Index (including income), without experiencing greater volatility than that Index. The Fund's Investment Benchmark is the MSCI World Index, which includes dividend income.

The Fund's investment objective is thus to outperform significantly, over time, the risk and return profile derived from a 100% weighting in the MSWI.

Investment Approach

The investment approach used by the Manager is to invest for the long term in a focused portfolio of shares in major companies, selected from a global universe for their outstanding characteristics.

Equities

Since its formation, the Vantage Group has utilised a proprietary computerised research system (see below) to screen the global equity universe, now consisting of the shares of over 16,000 major corporations, in its search for outstanding value. These corporations represent the vast majority of listed companies whose market capitalisations exceed US\$ 200m and whose shares trade more than US\$ 500,000 per day on average, and constitute the investment universe chosen by the Manager as suitable for the Fund.

The research system, which has been continuously developed, uses company income statement and balance sheet annual data, extending back over 25 years or more in most cases, in order to place an approximate value on each company's shares. The review of long term corporate profitability and growth reflects the Manager's belief that past long term corporate performance is likely to be a good predictor of future long term performance, subject to the requirement to understand the impact of shifting technology and growth trends, and the impact of expected economic and interest rate cycles on that performance. The computerised approach incorporates forecasting the expected return from investing in each company's shares over the next four years based on several independent valuation metrics. This process provides a consistent framework across the global database for evaluating shares as potential investments, and typically leads to the selection of companies with significantly better than average operating characteristics (such as higher historical returns on equity and per share growth rates), available at lower than average current ratings (such as price to net asset values, or price to normalised earnings).

The computerised screening of potential investments leads to the identification of a fundamentally attractive subset of shares, normally numbering between 2% to 4% of the investment universe. This subset is further sifted to identify those shares whose technical action supports a near term trading decision. Once passed these filters, then the Vantage Research System's computerised approach will make recommendations to buy or sell the equity in question. All decisions are reviewed by the Manager to ensure data integrity, and that the investment recommendation complies with the Fund's broader guidelines and restrictions. Only after such Manager review will the investment decision be implemented. Shares which pass all these filters may then be selected, with consideration given to portfolio correlation and risk concentration.

The Manager expects the turnover of the Fund's equity portfolio to be approximately 50% of the Fund's net assets per annum.

The Fund's objective and approach will be to remain fully invested in equities. However, the Fund may hold up to a maximum of 20% in cash at any time on market timing considerations and in order to meet redemptions.

Currency Management

Currency exposures are currently a function of your Fund's equity selections. For example, an investment in a Japanese listed equity will result in ownership of the equity and the associated position in the Japanese yen. The Manager envisages further development of the Vantage Research Systems may lead to currency exposures being managed independently through the computerised approach

Investment Restrictions

A summary of the investment restrictions applying to the Fund are as follows:

1. The Fund will maintain at least 80% of its net assets in global equities and equity index futures, other than in the initial stages of building its investment portfolio post its launch on 1 January 2008.
2. The Fund will not borrow, other than to enable the orderly redemption of shares, and such borrowings will be limited to a maximum of 10% of the Fund's Net Asset Value.
3. No more than 5% of the Fund's net assets will be invested in equity linked securities issued by the same issuer, except that positions of up to 10% are allowed as long as not more than 40% in total is invested in such positions of more than 5%.
4. The Fund shall not acquire positions of more than 10% of the voting or other shares of a body corporate, or of the units of a collective investment scheme, or of any equity linked security.
5. No more than 5% of the Fund's net assets may be invested in other open-ended collective investment schemes.
6. No more than 5% of the Fund's net assets may be invested in call warrants or call options, unless sufficient cash or near cash funds are set aside to provide for the aggregate exercise prices of these warrants or options.
7. No more than 10% of the Fund's net assets may be invested in equity-linked securities which are not traded on or under the rules of a stock market represented in the MSCI All World Index.
8. The Fund may use equity index futures to augment its direct equity investments and to maintain its minimum 80% exposure to global equities.
9. The Fund may enter into currency transactions, including transactions in the spot, futures and forward markets, as well as the purchase of put or call options, for the purposes of managing its currency exposure. However the Fund may not enter into a currency hedging transaction, if to do so would cause it to have an overall net negative exposure to a particular currency. Gold is considered a currency for the purposes of currency hedging.

If the Manager becomes aware of any contravention of the investment restrictions that was within the Manager's own control, the contravention will be rectified forthwith. If the Manager becomes aware of a contravention that was beyond its control, the contravention will be rectified as soon as practicable in the interests of Members, and not more than six months from its identification.

Risk Factors

There can be no assurance that the Fund's investment objective will be achieved, and hence an investment in the Fund may involve significant risks. An investment in the Fund is suitable only for sophisticated investors who fully understand the risks of, and are actively seeking, an un-hedged exposure to global equities. The following considerations should carefully be evaluated before making an investment in the Fund.

1. The Fund will be exposed at all times to the risks associated with investing in global equities. Should there be a significant fall in global equity markets, even if your Fund succeeds in its objective of outperforming the MSWI, its Net Asset Value may decline considerably.
2. The Manager may not be successful in selecting shares that outperform the MSWI.
3. Even if the Manager is successful in selecting shares which outperform the MSWI, the value of the shares selected is likely to decline in adverse stock market conditions.
4. The Manager may not be successful in selecting currencies that add value relative to the Fund's neutral currency mix, derived from the currency exposures underlying the MSWI. Even if the Manager is successful in selecting currencies that add value relative to that neutral currency mix, the currency selection may cause a decline in the Net Asset Value of the Fund when measured in a potential investor's domestic currency.
5. Should the Manager's implementation of the Vantage Research System's computerised approach be unsuccessful in adding value in share selection, including the associated currency, the value of the Fund may decline significantly both relative to its benchmark and in absolute terms.
6. The Fund is exposed to counter party risk to the extent that it enters into forward and futures contracts, and the non-performance of a counter party may have a material negative impact on the Fund's valuation.
7. The Fund does not intend to pay dividends or other distributions, but intends instead to reinvest all of the Fund's income and gain. Accordingly, an investment in the Fund may not be suitable for investors seeking current returns for financial or tax planning purposes. The Directors do however reserve the right to declare and pay dividends.
8. There is no guarantee that implementation of the investment objective or strategy with respect to the assets of the Fund will not result in losses to holders of Participating Shares.

VALUATION, PRICING AND TRANSACTING IN THE FUND**Valuation of the Fund**

The Fund's Net Asset Value is calculated on Wednesday of each week or at such other time as the Administrator with the approval of the Directors shall determine (the "Valuation Day"), based on the valuation of its underlying assets and liabilities pertaining as of the close of business on the Valuation Day.

All subscriptions and redemptions are based on the Fund's Net Asset Value per Share, (see below), determined by the Administrator at values pertaining as of the close of business on the Valuation Day. The Fund's value is calculated by the Administrator on the first Business Day in the Cayman Islands after the Valuation Day (the "Calculation Day").

The Net Asset Value per Share is expressed in US dollars and is determined by dividing the net assets of the Fund by the number of Shares in issue on the Valuation Day, excluding any subscriptions or redemptions scheduled for that Valuation Day. The net assets of the Fund comprise the principal aggregate of all the investments owned or contracted to be purchased by the Fund at their closing prices in their markets as of the Valuation Day, plus any cash, bills, accrued interest, or other property of any kind as defined from time to time by the Directors, from which are deducted the Fund's operating expenditures which include inter-alia the management fees, custodial, administrative, legal and regulatory compliance expenditures, the value of any investments contracted to be sold, the aggregate amount of any borrowings, any interest or other charges, or other liabilities of any kind as defined from time to time by the Directors.

Pricing of the Shares

Investors subscribing for Shares pay the Subscription Price. The Subscription Price is calculated by the Administrator on the Calculation Day, and corresponds to the Net Asset Value per Share on the Valuation Day plus the Transaction Cost.

Investors redeeming Shares receive the Redemption Price. The Redemption Price is calculated by the Administrator on the Calculation Day, and corresponds to the Net Asset Value per Share on the Valuation Day less the Transaction Cost.

The Transaction Cost reflects the costs of deploying the newly subscribed cash into the property of the Fund, or of raising the redemption proceeds from the property of the Fund. The Transaction Cost, which is determined with reference to the underlying investment portfolio, is currently set at 0.30% of the Net Asset Value per Share at date of the Prospectus, and will be reviewed periodically by the Directors and adjusted to reflect the actual transaction costs experienced by the Fund. The Transaction Cost is retained by the Fund for the benefit of continuing Members, thereby ensuring that the interests of continuing Members are not prejudiced by subscriptions or redemptions.

The Subscription and Redemption Prices are available each week at close of business on the Calculation Day, and Members may obtain the latest prices by telephone by dialing +1 902 943 7000 or via the Internet at web address at www.vantagefunds.com

Partial redemption of a Member's holding of Shares is permitted in amounts of at least US\$ 1,000, provided that such redemption would not cause the value of a Member's holding of Shares to fall below US\$ 100,000 immediately after the redemption.

2. When as a result of circumstances outside the control of the Fund, the Directors believe that it is not reasonably practicable for the Manager to dispose of the Fund's assets without materially prejudicing the interests of Members.
3. If it is not reasonably practicable to determine the Net Asset Value of the Shares on an accurate and timely basis.
4. If as a result of exchange-control restrictions or other restrictions affecting the transfer of funds, transactions on behalf of the Fund are rendered impracticable, or if purchases or sales of the Fund's assets cannot be affected at normal rates of exchange.

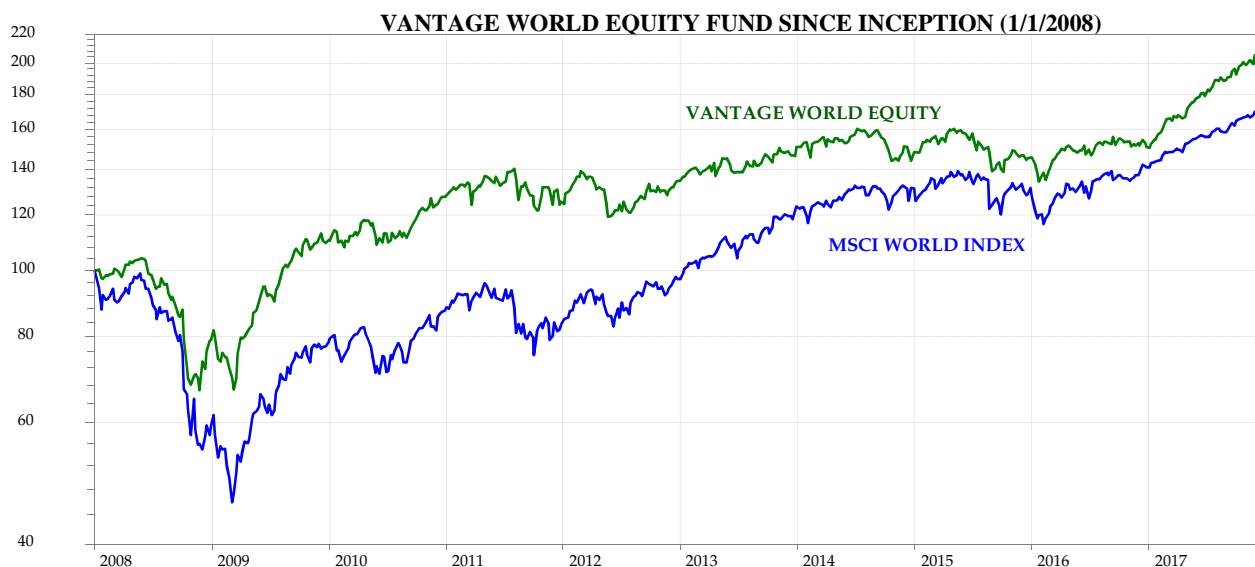

Investors applying to subscribe for, or Members applying to redeem, will be notified of the imposition and lifting of any suspension, and may withdraw their subscription or redemption application while such a suspension exists. Unless withdrawn, applications to subscribe or redeem will be considered on the first Valuation Day after the lifting of the suspension.

PERFORMANCE BENCHMARKS AND FEES

Performance Benchmarks

The Fund has been established with the aim of achieving significant long term out performance above the returns of the World Equity Index. In order to evaluate the performance, the performance benchmark is constituted by the MSCI World Index (“MSWI”), which includes dividend income. This index is a market capitalisation weighted index of all material global equity markets.

The performance of the Vantage World Equity Fund since inception to 31 December 2017, as well as that of the MSWI re-based to 100 on the Fund’s inception date is presented below:

Percentage Returns in US Dollars up to 31 December 2017			
	Year to 31 December 2017	Inception (3) to 31 December 2017	CAGR (4)
Vantage World	36.7	105.9	7.5
Investment Benchmark ⁽¹⁾	23.1	73.0	5.6
Value Added Return ⁽²⁾	11.1	19.0	1.8

Key to Performance Table

- (1) The Investment Benchmark is defined as the MSCI World Index including income. Prior to 28 May 2014, the Investment Benchmark was the FTSE World Index including income.
- (2) Value Added Return is defined as the incremental return earned by the Fund after deducting all expenses and Fees including the Manager’s Performance Fee, relative to the return that would have been derived from investing all the Net Assets of the Fund in world stock markets.
- (3) Inception date 1st January 2008.
- (4) CAGR - Compound Annual Growth Rate since inception

The Manager’s Fee

The Manager’s Fee is designed to align the interests of the Manager and those of investors in the Fund, who seek returns exceeding those attainable from investing in a global equity index without exposing their investment to greater volatility than such an index. The Manager’s Fee is determined by the Administrator each week on the Calculation Day and charged to the Fund. It consists of:

- 1. A Base Fee of 1% per annum of the weekly Net Asset Value of the fund;
- 2. A Performance Fee of 15% of the Incremental Value Added (as defined below), calculated as the Fund’s return, after all other fees and charges, relative to the return that would have derived from an investment in the MSWI, with the Fund’s relative return ‘high-water’ mark to be exceeded before the Performance Fee is charged.

VANTAGE WORLD EQUITY FUND

The Fund's 'high-water' mark is rebased to the Fund's benchmark, the MSWI, on the "high-water" mark reset date of 29th December 2017. Technically put, the Performance Fee is calculated as follows:

The "Incremental Value Added" is determined as of each Valuation Day as follows: The value added return (the "Value Added Return") is calculated for the period since the prior Valuation Day as the ratio difference between the return of the Fund's shares after deducting all expenses other than the Performance Fee, and the return of the MSWI. The cumulative value added return (the "Cumulative Value Added Return") is calculated as the cumulation of the weekly Value Added Returns post the Fund's 'high-water' mark reset date. The incremental value added return (the "Incremental Value Added Return") is calculated as the return of the Cumulative Value Added Return on the relevant Valuation Day relative to the Cumulative Value Added Return at the Fund's 'high-water mark' reset date, or if a Performance Fee has been charged post the Fund's 'high-water' mark reset date, at the date of that previous Performance Fee. The Incremental Value Added is calculated as the Incremental Value Added Return multiplied by the Net Asset Value of the Fund after all subscriptions and redemptions on the prior Valuation Day have been taken into account. The Incremental Value Added is taken as zero if the Incremental Value Added Return is negative.

Thus the calculation of the Performance Fee protects the interests of:

- Existing Members by ensuring that the Fund does not bear incremental Performance Fees unless its Members have benefited from Incremental Value Added; and
- New Members by ensuring that they do not pay for past performance, from which they have not benefited.

Administration Fees

The Administrator receives its fees as a direct charge on the property of the Fund. The fees for Administration are set at competitive rates and may be amended from time to time by agreement by both the Fund and the Administrator.

Other Costs and Expenses

The Fund bears its other operational costs including the transaction costs of buying and selling the underlying securities, sub-custodian fees, directors' fees, government charges, legal and regulatory compliance fees, accounting and auditing fees, interest on borrowings and costs related to the submission required for UK Reporting Fund Status.

Dividends and other Income

The Fund does not anticipate paying dividends, other than if required to do so in order to maintain UK Reporting Status or a similarly advantageous tax classification in another jurisdiction important to the Fund's shareholders. Absent such a requirement, the Fund will retain all dividends, interest and other income derived from its assets, and this will be reflected in the Net Asset Value of the Fund.

Accounting

The Fund's financial accounting records are kept in US dollars, and its accounts are drawn up in accordance with Cayman Islands law and prepared under International Financial Reporting Standards.

- Simply because the Fund's accounts are drawn up in US dollars and for convenience its prices are reported in US dollars, Members should not be misled into believing that the Fund's investments and its Investment Benchmark are largely based in the US Dollar. The Fund's neutral currency mix is derived from the currency mix underlying the MSWI, which in turn is derived from the respective weightings of each country's equity market in that index. The Fund's currency deployment will differ from that of the MSWI to the extent that the Manager chooses to exercise a currency view.
- For a more detailed review of the Fund's currency management approach please refer to the section entitled Investment Approach – Currency Management on page 4 of this Prospectus.

On behalf of the Fund, the Administrator offers authorised persons, including relevant service providers and investors the opportunity to review confidential fund information, including but not limited to investor and investment information, via electronic delivery. Although this may be of benefit, it is important to note that;

- i. electronic communications may not be secure, may contain computer viruses or other defects, may not be accurately replicated on other systems, or may be intercepted, deleted or interfered with without the knowledge of the sender or the intended recipient; and
- ii. the information may be located outside of the Cayman Islands and may need to be disclosed to third parties; e.g. those involved with the maintenance of the information, and could be accessed by unauthorised persons.

As such, the person to whom the information belongs, by investing in the Fund, agrees that the Administrator, on behalf of the Fund, may employ the applicable method of communication. The person will also be required to release the Administrator, the Fund and the Manager from any form of liability or loss associated with the communication or publication of fund information, including but not limited to investor and investment information. The Administrator makes no warranties in relation to these matters and the use of the alternative methods of communication will be at the sole risk of the person to whom the information belongs. The Administrator also reserves the right to intercept, monitor and retain communications to and from its systems as permitted by applicable law.

United States Person

A "United States Person" is deemed to be a citizen or resident of the United States, a corporation, partnership or other entity created or organised under the laws of the United States, an estate or trust the income of which is subject to United States Federal taxation, or a nominee of any of the above. United States is used to denote the United States of America, its territories, its possessions, and other areas subject to its jurisdiction.

Taxation

Cayman Islands

The following is a summary of certain Cayman Islands tax consequences to persons who purchase Shares in the Fund. The discussion is based upon applicable law of the Cayman Islands and on the advice of Walkers, Cayman Islands counsel. The discussion does not address all of the tax consequences that may be relevant to a particular shareholder. Prospective investors must consult their own tax advisers as to the Cayman Islands tax consequences of acquiring, holding and disposing of Shares, as well as the effects of tax laws of the jurisdictions of which they are citizens, residents or domiciliaries or in which they conduct business.

There is, at present, no direct taxation in the Cayman Islands and interest, dividends and gains payable to the Fund will be received free of all Cayman Islands taxes. The Fund is registered as an "exempted company" pursuant to the Companies Law (as amended). The Fund has received an undertaking from the Governor in Cabinet of the Cayman Islands to the effect that, for a period of 20 years from 27 November 2007, no law that thereafter is enacted in the Cayman Islands imposing any tax or duty to be levied on profits, income or on gains or appreciation, or any tax in the nature of estate duty or inheritance tax, will apply to any property comprised in or any income arising under the Fund, or to Shareholders thereof, in respect of any such property or income. Investors should note that the Fund might be required to make disclosures with respect to their investments in the Fund, if so required by any taxation or regulatory authority in the Cayman Islands or elsewhere

UK

The Fund has been awarded Reporting Fund Status designation by UK HMRC. This provides that investors can benefit from capital gains tax treatment upon realisation of their interest in the Fund. The Reporting Fund Status rules are effective as of 1 January 2010 and replace the old UK Distributor Status regime.

In order to maintain the designation, the Fund must meet the ongoing reporting criteria on an annual basis which includes reporting 100% of income to investors. The UK investors will then be subject to income tax on the income reported to them. Should the Fund fail to meet any of its reporting obligations, it may lose its designation as a reporting fund.

In order for investors joining the Fund from 1 January 2010 to benefit from capital gains treatment upon disposal, it is necessary for the Fund to have remained a reporting fund throughout the period the shares were held. For investors who held an interest in the fund prior to 1 January 2010, it is necessary for the fund to have qualified for UK Distributor Status Fund and subsequently Reporting Fund Status throughout the period of ownership.

The directors will endeavor to meet the necessary ongoing reporting obligations however no guarantee can be made that these conditions will be met.

Foreign Account Tax Compliance Act ("FATCA")

The Cayman Islands and the Internal Revenue Service ("IRS") have signed the Model 1 Inter Government Agreement ("IGA"). The IGA compels Vantage World Equity Fund to report information to the Cayman Islands Tax Information Authority ("Cayman TIA") on financial accounts containing US indicia. The Cayman TIA will then forward the information to the IRS. Investors are encouraged to consult with their own tax advisor regarding the implications of FATCA on their investments.

Common Reporting Standards

Common Reporting Standards ("CRS") were introduced by the Organization for Economic Cooperation and Development in February 2014 and aim to provide the annual automatic exchange of financial account information between governments and their representative tax authorities. CRS is based on tax residency rather than citizenship.

The Cayman Islands have agreed to comply with the provisions of the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information.

Legal Matters

Cayman Islands Mutual Funds Law

The Fund falls within the definition of a "Mutual Fund" in terms of the Mutual Funds Law (as amended) of the Cayman Islands (the "Law") and accordingly is regulated in terms of that Law. However, the Fund is not required to be licensed or employ a licensed mutual fund administrator since the minimum aggregate investment purchasable by a prospective investor in the Fund is equal to or exceeds US\$100,000.00 or its equivalent in any other currency.

As a regulated mutual fund, the Fund is subject to the supervision of the Cayman Islands Monetary Authority (the "Monetary Authority"). The Fund must file this Memorandum and details of any changes that materially affect any information in this document with the Monetary Authority. The Fund must also file annually with the Monetary Authority accounts approved by an approved auditor, together with a return containing particulars specified by the Monetary Authority, within six months of its financial year end or within such extension of that period as the Monetary Authority may allow. A prescribed fee must also be paid annually.

The Monetary Authority may, at any time, instruct the Fund to have its accounts audited and to submit them to the Monetary Authority within such time as the Monetary Authority specifies. In addition, the Monetary Authority may ask the Directors to give the Monetary Authority such information or such explanation in respect of the Fund as the Monetary Authority may reasonably require to enable it to carry out its duty under the Law.

The Monetary Authority shall, whenever it considers it necessary, examine, including by way of on-site inspections or in such other manner as it may determine, the affairs or business of the Fund for the purpose of satisfying itself that the provisions of the Law and applicable anti-money laundering regulations are being complied with.

The Directors must give the Monetary Authority access to or provide at any reasonable time all records relating to the Fund and the Monetary Authority may copy or take an extract of a record it is given access to. Failure to comply with these requests by the Monetary Authority may result in substantial fines on the part of the Directors and may result in the Monetary Authority applying to the court to have the Fund wound up.

The Monetary Authority may take certain actions if it is satisfied that a regulated mutual fund

- (a) is or is likely to become unable to meet its obligations as they fall due;
- (b) is carrying on or is attempting to carry on business or is winding up its business voluntarily in a manner that is prejudicial to its investors or creditors;
- (c) is not being managed in a fit and proper manner; or
- (d) has persons appointed as Director, manager or officer that is not a fit and proper person to hold the respective position.

The powers of the Monetary Authority include, inter alia, the power to require the substitution of Directors, to appoint a person to advise the Fund on the proper conduct of its affairs or to appoint a person to assume control of the affairs of the Fund. There are other remedies available to the Monetary Authority including the ability to cancel the registration of the Fund and to apply to the court for approval of other actions.

Anti-Money Laundering

Cayman Islands

In order to comply with applicable legislation or regulations aimed at the prevention of money laundering and combating of terrorist financing ("AML Regime"), the Fund and/or the Administrator is required to adopt and maintain anti-money laundering procedures, and may require subscribers to provide evidence to verify their identity and source of funds. Where permitted, and subject to certain conditions, the Fund may also delegate the maintenance of its anti-money laundering procedures (including the acquisition of due diligence information) to a suitable person, within or outside the jurisdiction.

Although certain due diligence exceptions may be available under the AML regime, the Fund and the Administrator on the Fund's behalf, reserve the right to request such information as is necessary to verify the identity of a prospective investor (i.e. a subscriber or a transferee).

Any information obtained from the investor, or in relation to the investor, Fund or its business, may be disclosed by the Fund or the Administrator to third parties, within or outside the jurisdiction, including, inter alia, affiliates, service providers and/or regulatory, legal, fiscal and administrative authorities, in the course of conduct of business of the Fund or the Administrator.

In the event of delay or failure on the part of the subscriber in producing any information required for verification purposes, the Fund or the Administrator on the Fund's behalf, may refuse to accept the application or forcibly redeem the subscriber's position, in which case any funds received will be returned without interest in due course to the account from which they were originally debited, or dealt with by the Fund or the Administrator in compliance with the AML Regime.

The Fund and the Administrator on the Fund's behalf, also reserve the right to refuse to make any redemption or dividend payment to a Shareholder if the Directors or the Administrator suspect or are advised that the payment of redemption or dividend proceeds to such Shareholder may be non-compliant with the AML regime or any other applicable laws or regulations, or if such refusal is considered necessary or appropriate to ensure the compliance by the Fund or the Administrator with the AML Regime or any other applicable laws or regulations.

If any person resident in the Cayman Islands knows, suspects, or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or is involved with terrorism or terrorist property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority of the Cayman Islands, pursuant to the Proceeds of Crime Law (as amended) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering, or (ii) a police officer of the rank of constable or higher, or the Financial Reporting Authority, pursuant to the Terrorism Law (as amended) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. Such a report shall not be treated as a breach of any restriction upon the disclosure of information imposed by law or otherwise.

Other Jurisdictions

Many jurisdictions are in the process of changing or creating anti-money laundering, embargo and trade sanctions, or similar laws, regulations, requirements (whether or not with force of law) or regulatory policies and many financial intermediaries are in the process of changing or creating responsive disclosure and compliance policies (collectively "Requirements") and the Fund could be requested or required to obtain certain

assurances from applicants subscribing for Shares, disclose information pertaining to them to governmental, regulatory or other authorities or to financial intermediaries or engage in due diligence or take other related actions in the future. It is the Fund's policy to comply with Requirements to which it is or may become subject to and to interpret them broadly in favour of disclosure. Each applicant by executing the Application Form consents, and by owning Shares is deemed to have consented, to disclosure by the Fund and its agents to relevant third parties of information pertaining to it in respect of Requirements or information requests related thereto. Failure to honor any such request may result in redemption by the Fund or a forced sale to another investor of such applicant's Shares.

For the purposes of these exceptions, recognition of a financial institution, regulatory authority or jurisdiction will be determined in accordance with the Regulations by reference to those jurisdictions recognised by the Cayman Islands as having sufficient anti-money laundering regulations.

The Fund and the Administrator each reserve the right to request such information as is necessary to verify the identity of a prospective investor. The Fund and the Administrator also each reserve the right to request such identification evidence in respect of a transferee of Shares. In the event of delay or failure by the prospective investor or transferee to produce any information required for verification purposes, the Fund or Administrator may refuse to accept the application or (as the case may be) to register the relevant transfer and (in the case of a subscription of Shares) any funds received will be returned without interest to the account from which the monies were originally debited.

The Fund and the Administrator also each reserve the right to refuse to make any redemption payment to a Shareholder if any of the Directors of the Fund or the Administrator suspects or is advised that the payment of any redemption moneys to such Shareholder might result in a breach or violation of any applicable anti-money laundering or other laws or regulations by any person in any relevant jurisdiction, or such refusal is considered

necessary or appropriate to ensure the compliance by the Fund, its Directors or the Administrator with any such laws or regulations in any relevant jurisdiction.

The Administrator may request information in connection with the identity of a Subscriber at any time, and the Fund and the Administrator may provide copies of the Subscriber's Application Form and up to date copies of the register of members of the Fund to the Custodians.

General data Protection Regulation (GDPR)

The General Data Protection Regulation ("GDPR") is a regulation in European law on data protection and privacy for all individuals within the European Union. The Fund adheres to the data protection standards of GDPR for all investors, whether they are from inside or outside the European Union. By subscribing for shares in the Fund, investors consent that their personal data will be provided by the Fund to the Administrator and the Investment Manager for contact, anti-money laundering and other regulatory obligations, and investor services purposes.

The Investor’s name must be included on line 50 of the SWIFT wire transfer message or the wire transfer must state “From the Account of _____ (Investor name)”.

6. Please note that in order for the Administrator to comply with Anti-Money Laundering Legislation in the Cayman Islands, the Administrator must be able properly to identify the source of funds sent to it for investment. Accordingly, the Subscriber is required to complete both the “Ordering Customer” (field 50) and the “Ordering Institution” (field 52D) when sending a wire payment through the international SWIFT system.

Anti-Money Laundering Supplement

In order to comply with regulations aimed at the prevention of money laundering, the Fund will require verification of identity from prospective investors. Identity Verification forms must be completed at time of initial subscription (<https://www.vantagefunds.com/Subs/subscription.shtml>).

The Fund and the Administrator each reserve the right to request such information as is necessary to verify the identity of a prospective investor. The Fund and the Administrator also each reserve the right to request such identification evidence in respect of a transferee of Shares. In the event of delay or failure by the prospective investor or transferee to produce any information required for verification purposes, the Fund or Administrator may refuse to accept the application or (as the case may be) to register the relevant transfer and (in the case of a subscription of Shares) any funds received will be returned without interest to the account from which the monies were originally debited.
